DETAILED ACTION

Examiner acknowledges receipt of amendment D filed 05/21/03.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach a formulation that comprises menthol and menthyl lactate and where menthol and menthyl lactate are combined in a ratio of menthol/menthyl lactate of from about 1/3 to about 1/10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

All three inventors failed to supply the date of execution of the declaration. Applicants on page 4 of the remarks filed 09/25/02 indicate that "a declaration detailing the inventor's unavailability and applicants' efforts to locate said inventor will be submitted." However, the office has so far not received the new declaration. A declaration appropriately executed by all inventors is required.

In the response filed 05/21/03, applicants are silent to the request to correct the declaration.

Art Unit: 1615

Since the art rejection is withdrawn and rejection under 35 U.S.C. 112, second paragraph, applicants are also respectfully requested to provide new declaration that is appropriately executed by all the inventors.
